

AL09-04-100: Magnetic Stirrer, 15 stirring points without motor, 1500 ml

Ultra flat, wear-free magnetic stirrer with 15 stirring positions up to 1,500 ml stirring volume, suitable for 15 x 250 ml beaker glasses (tall form). Designed for reliable mass screenings as well as chemical, biotechnical and medical applications.

Features:

- Price optimized magnetic stirrer with 15 stirring positions
- **100% maintenance-free and wear-free** by inductive magnetic drive concept for powerful mixing of solutions
- speed range from 120 to 1200 rpm
- jerk-free stirring even at low speeds
- **100% synchronous speed at all stirring positions**
- Super flat, space-saving stirring drives
- SoftStart for reliable catching/centering and safe accelerating of the stirring bar
- outstanding long-life cycle of the hermetically sealed drive system
- 3 years warranty

Technical Specification:

Stirring points:	15
Stirring volume:	1 – 1,500 ml
Speed range:	120 – 1200 rpm
Stirring power (max.):	10 watts
Material housing:	Stainless-steel
Measurements (WxDxH):	245 x 425 x 38 mm
Weight:	ca. 8,8 kg
Permitted operation conditions:	-10 up to +50 °C (at 80% humidity)
Permitted storage conditions:	-40 °C up to +70 °C, 10 – 95 %, 500 - 1060 hPa
Electrical data:	100–240 volts / 50-60 Hz / 1.5 A
