

Blood Bank

Centrifuge for Cross-matching test.

Serospin

3,400 MAX. RPM	1,021 MAX. RCF	75mm X 12 MAX. CAP
--------------------------	--------------------------	------------------------------

Max. RPM	3,400rpm
Max. RCF	1,021xg
Max. capacity	12 x 75mm tube
Temperature range	Air cooling
Timer	99min
Brake selection	Slow, Normal, Fast (3 step)
Programmability	10 memory
Digital display	Speed, Time Program, Brake Step
Power	220V, 60Hz, 0.5kW
Dimension	270W x 355D x 280H
Weight	11Kg

* Please note that technical specifications subject to change.

Easy to remove rotor for convenient washing.

Milk-fat centrifuge

Specialized centrifuge for milk-fat separation. Gelber and Babcock type tube are available with easy-to-use knob to operate.

HA 400

1,700 MAX. RPM	810 MAX. RCF	100ml X 4(8,12) MAX. CAP	100ml X 4(8) MAX. CAP
--------------------------	------------------------	------------------------------------	---------------------------------

Gelber **Babcock**

Max. RPM	1,700rpm
Max. RCF	810 x g
Max. capacity	4 (8,12) x 100ml(Gelber) 4 (8) x 100ml(Babcock)
Drive motor	High Torque DC motor
Power supply	220V, 60Hz, 1kW
Timer	0~30 minutes, Free
Dimension	670 φ 420H
Weight	33Kg

* Please note that technical specifications subject to change.
